

Membership Registration

April 2009

<http://www.filesig.co.uk/>

Introduction

This document explains how to register for membership which includes access to the Online File Signature Database.

- General Membership is free and provides access to the member page and free downloads only. Free to practitioners, students etc.
- Full Membership provides access to the member page above and OFSDB. Free to Government/LE group, if you do not fit into this group contact support or pay the subscription fee.

Subscription Based Service

The Online File Signature Database (OFSDB) operates a yearly subscription based service, subscriptions pay toward ongoing bespoke development and upkeep of the resource including administrative tasks and responsibilities. The subscription also covers the cost of hosting (which is minimal in comparison to development but a cost none the less).

Small companies and units are welcome to subscribe under a single company/unit name.

A subscription can be in the name of an individual or a company. Please note that companies with 10 or more practitioners will need to contact support prior to purchase, it is not acceptable for multiple users to share one account in this instance.

Government organisations are welcome to sponsor this resource.

For more information or assistance please contact: info@filesig.co.uk

Over 90% of members receive this resource free of charge so please consider the subscription.

Minimum Membership Requirements

This resource is open to all active practitioners and is not restricted in any other way. The information contained within the OFSDB is not secret however the information should be considered as CONFIDENTIAL and only to be distributed amongst other members of OFSDB.

Registration Steps

1. Complete the Registration Form www.filesig.co.uk/register.php - it is important that you complete this form as accurately as possible so as not to cause delay. Free email accounts (gmail, hotmail etc) as the Primary email address are not accepted and will be deleted automatically by the system. Once you are registered you are welcome to revert back to your preferred email address.
2. You may receive your login username and password information via email after registration.
